We are excited to announce the Good Guys Good Gals Invitational to be held in Jacksonville, Florida on September 26, 2011. With the help of Golf Fights Cancer, the event will benefit research for pediatric brain cancer through the Ellie Kavalieros DIPG Research Fund.

Following a great day of golf, Dr. Mark W. Kieran, Director of Pediatric Neuro-Oncology at the Dana-Farber Cancer Institute in Boston, will share his cutting-edge cancer research — research that is aggressively working towards a cure for cancer. Our goal is to introduce those who are passionate about making a difference in the fight against cancer to Dr. Kieran's inspiring work.

*Dr. Kieran*

In May 2010, at the age of 10, Ellie Kavalieros was diagnosed with a Diffuse Intrinsic Pontine Glioma (DIPG), an inoperable, high-grade brain tumor situated in the pons of the brainstem, which controls many vital functions. DIPG is considered the most aggressive of all pediatric cancers. Over the past year, Ellie has met each obstacle with courage and grace as she continues to fight a very difficult battle against cancer.

Ellie's research fund has been created in association with Dana-Farber under the direction of Dr. Kieran. Recognized as one of the top pediatric cancer hospitals in the world, Dana-Farber is sponsoring his research in collaboration with 20 leading cancer centers throughout the United States.

Many experts believe research directed at pediatric brain cancer may present clues to curing other forms of cancer in both adults and children. We are thrilled with the opportunity to raise awareness for such a wonderful cause, and in the name of such a beloved child.

Committee Chairs

- Curtis Hazel
- Lisa Kavalieros
- Nick Kavalieros
- Dianne Lynch
- Andrea McGriff
- Billy McGriff
- David McGriff
- Jill McGriff
- Jay Monahan
- Ryan Parker
